Education

Master's in Computer Science, University of Southern California **May 2024**

CSCI-570 - Analysis of Algorithms, CSCI-571 - Web Technologies

Bachelor's in Information Technology, University of Mumbai, CGPA: 9.65 / 10 **May 2022**

Skills

- **Languages:** Java, Python, C, C++, Visual Basic
- **Databases:** Oracle, MongoDB, Sqlite3
- **Web Technologies:** HTML, CSS, React, NodeJS, ExpressJS, Mongoose, Flask, Django, GCP
- **Machine Learning Technologies:** Numpy, Pandas, Matplotlib, Tensorflow, PyTorch
- **Spoken Languages:** Hindi (Native), English (Fluent), Spanish (Intermediate)

Experience

Data Analyst | Tech Mahindra | Mumbai **Aug 2021**

- Mastered Azure cloud data platforms and established machine learning pipeline for data analytics
- *Technologies: Azure (ADF, ADLS, Synapse), Python, Machine Learning*

Full Stack Developer | Oye India (NGO) | Mumbai **Sep 2020**

- Founded a grievance portal for citizens and government interaction from scratch. Designed database schemas
- *Technologies: HTML, CSS, JS, NodeJS, ExpressJS, PassportJS, MongoDB*

Backend Developer | Bech Daal (Start-Up) | Mumbai **Aug 2020**

- Devised core user functionalities - logins, user verification and business logic along with schema design
- *Technologies: HTML, CSS, NodeJS, ExpressJS, PassportJS, MongoDB, Google Authentication APIs*

AI Intern | Cloud Counselage Pvt Ltd | Mumbai **Jul 2020**

- Programmed a chatbot and a deep neural network calculating difficulty of Computerized Adaptive Testing
- *Technologies: Python, Numpy, Pandas, Matplotlib, Deep learning*

Publications

A Decentralized Approach for Evidence Management in Archaeology [Link] **Mar 2022**

- Keywords: Distributed Ledger, Blockchain, Smart Contracts, Solidity, Ethereum, Archaeology, Excavation

Lip Reading: Delving into Deep Learning [Link] **Sep 2021**

- Keywords: Automatic Speech Recognition, Lip Reading, Neural Networks, Feature Extraction, Deep Learning

Projects

Unmute the Muted | *HTML, CSS, JavaScript, Django, Sqlite3, Python, Machine Learning, PyTorch, OpenCV*

- Implemented a copyright approved lip reading software and first video database for Indians [Code] [Demo]

Doctor Doctor | *HTML, CSS, JavaScript, Django, Sqlite3, Python, Machine Learning*

- Engineered heart diseases (91%) and diabetes (96.96%) predictor with an appointment scheduler[Code] [Demo]

Internship Portal | *HTML, CSS, JavaScript, NodeJS, ExpressJS, PassportJS, MongoDB*

- Built a website for finding internships with search, filter & other tools to help make a match [Code]

YelpCamp | *HTML, CSS, JavaScript, NodeJS, ExpressJS, PassportJS, MongoDB*

- Launched a website for finding and adding new campgrounds, features user rating and comments [Code] [Demo]

Leadership

- Coached students as a Senior Mentor for Machine Learning at Init.AI, University's AI Club
- Organized tree plantation and beach cleaning for NSS society and Organization for Youth and Elderly
- Led Publicity Team of 6 and coordinated and organized Model United Nations hosted by Maharashtra Summit
- Represented Information Technology as Class Representative, coordinated lectures and exams during COVID-19
- Hosted hackathons as a Lead of Computer Society of India Committee at University of Mumbai
